The functional summary is followed by a brief departmental narrative that outlines the department's responsibilities, budget, and service level. A departmental organization chart shows divisions and/or programs with staffing and expenditure levels and the Advantage 2.0 System (ADV2) code reference. Also included is a graph that presents a nine-year departmental expenditure history and the adopted budget. Within a departmental summary, related totals may vary slightly due to rounding.

ENTERPRISE FUNDS

The City of Houston has three Enterprise Fund operations: Aviation, Convention and Entertainment Facilities, and Public Works and Engineering - Public Utilities. These funds have the same budget presentation as described for General Fund departments, with the exception of the Fund Summary that follows the departmental narrative. Aviation and Public Works and Engineering - Public Utilities have separate funds for the purchase of capital outlay items. These funds are the Airport Capital Outlay Fund and the Public Utilities Capital Outlay Fund, respectively. In general, the Fund Summary includes the following items for the FY2002 Budget, the FY2002 Estimate, and the FY2003 Budget:

- o Beginning fund balance/equity
- o Current revenues and other sources
- o Maintenance and operating expenditures/expenses
- o Other expenditures/uses
- o Operating reserve
- o Planned ending fund balance/equity
- o Total budget

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for the proceeds of specific revenue sources, which are restricted to expenditures for specified purposes. In FY2003, the Special Revenue Funds include the following operations:

- o Asset Forfeiture
- o Auto Dealers
- o Building Inspection
- o Cable Television
- o Child Safety
- o Houston Emergency Center
- o Houston TranStar Center
- o Municipal Courts Building Security
- o Parks and Recreation Special Revenue
- o Police Special Services
- o Sign Administration
- o Stormwater Utility
- o TxDOT Signal Maintenance

INTERNAL SERVICE FUNDS

Internal Service Funds are established for the purpose of providing services to City departments on a cost-reimbursement basis. Services provided by personnel in this fund type are charged to the department receiving the services. The Internal Service Funds section includes the following operations in FY2003:

- o Health Benefits
- o Long-Term Disability

The presentation format for the Internal Service Funds is identical to the Enterprise Funds.

EQUIPMENT ACQUISITION

The Equipment Acquisition Program is not subject to the annual budget cycle. The equipment in this program is financed by the issuance of Commercial Paper (CP). A separate appropriation is established after the issuance of CP.

REVOLVING FUNDS

Revolving Funds are also established to provide services on a cost-reimbursement basis and as an administrative convenience. Generally speaking, supplies and services are delivered or acquired on behalf of a department, which is later billed. For example, the Central Services Revolving Fund pays the electrical bills for departments and is then reimbursed. This procedure also allows for the accurate allocation of costs by department and fund by using the modified accrual basis of accounting. These funds are sub-funds of the General Fund.

The Revolving Funds section includes the following operations in FY2003:

- o Central Services
- o Fire Reconstruction
- o Fleet Management
- o Property and Casualty
- o Workers Compensation

The format for the Revolving Funds is identical to the Enterprise Funds.

DEBT SERVICE FUNDS

This section consists of a narrative explaining the purpose of these funds, highlights of the FY2003 Budget, the reserve policy, and Fund Summary tables. In addition, this section includes the Annual Financing Plan (AFP), which outlines the proposed schedule for various debt issuances in the upcoming fiscal year.

TAX INCREMENT REINVESTMENT ZONES

Since 1991, twenty Tax Increment Reinvestment Zones (TIRZ) have been created. As development occurs in each zone, the taxes generated by the increase in value attributable to those improvements, or "tax increments", are captured in separate funds set up for each TIRZ. TIRZ funds are then used to pay for approved project costs. Examples of typical costs include infrastructure improvements in water, sanitary sewer, and storm water systems; lighting; paving on public right-of-way; streetscaping; and impact fees. Contributions from other taxing jurisdictions participating in the TIRZ are collected by those jurisdictions and sent to the City for deposit in the TIRZ funds. Harris County and the Houston Independent School District (HISD) are participating in sixteen of the twenty TIRZs. The Department of Planning and Development administers the funds.
